 Monastery of the
 Holy Cross

I have been associated with the Monastery of the Holy Cross since 1996. Through the years, everything I have experienced at the Monastery has been filled with beauty and performed with dignity. The Benedictine qualities that characterize the Monastery itself—compassion, reverence, careful attention to the smallest detail—are clearly evident in this work as well.

The opportunity to arrange for a simple, dignified wooden casket or burial urn, beautifully hand-made, helps me to accept the inevitable ending of my own life's journey. I am grateful that the Brothers are making it possible to continue my support for the Monastery in this way.
